EMERSON
EXCHANGE

A Message from Emerson Leadership

We are excited to invite you to join us for Emerson Exchange 2025, **Accelerating Innovation**, in San Antonio, Texas from May 19-22, 2025.

Emerson Exchange is more than just an industry-leading technical conference. This event reflects our unwavering commitment to fostering continuous learning and collaboration. It's an exclusive opportunity to engage, share knowledge, and deepen your understanding of cutting-edge trends as we bring together thought leaders, experts, and innovators from across the industrial automation industry.

You can actively participate in interactive workshops, technology demonstrations, and thought leadership sessions led by top experts, to unlock potential and gain insights that can be applied to your own operations. Together, we'll explore strategies for accelerating innovation and showcase the latest technology advancements from Emerson.

Emerson Exchange provides an invaluable and welcoming environment that serves to deepen our partnership and power the next generation of industrial technology and solutions. **Register today**, and don't miss the opportunity to be part of Emerson Exchange 2025 to make impactful connections that will drive the industry forward.

Sincerely,

Ron Martin

Conference Topics and Curriculum

Accelerate innovation with diverse sessions covering the latest in technology and industry insights. Discover user-led case studies, hear from experts on today's automation challenges, and engage with roadmaps, Q&As, and technical presentations to spark new ideas.

Nearly 300 sessions are planned this year, covering a wide range of solution and technology specific topics. Whether you are looking to improve energy efficiency, meet new regulatory requirements, increase yields, boost reliability or simply improve your facility's bottom line and green sustainability, there is wide range of pertinent sessions.

As a registered attendee, you will be able to tailor and schedule your curriculum to your specific interests with the **myExchange** scheduler.

Conference Sessions and Features

The comprehensive curriculum is made up of a variety of presentational formats.

Product Roadmaps: Emerson product experts present on the latest advancements in industrial automation technology. These sessions cover what is on the horizon in the next 6-12 months for new releases, new features, and enhancements within a variety of Emerson's products and services.

Meet the Experts: An open forum within a panel of experts focusing on common issues users face in their operations and what Emerson solutions that they apply. Meet, ask questions, learn from, and get to know the experts behind the technology.

User Case Study: Real-life user success stories about how Emerson products or services were implemented to upgrade a process, execute a project, solve a challenging application, or other similar themes. These case studies will reflect on a challenge, how the challenge was solved, and the business results achieved with the solution.

Process & Automation Practices: Typically focused on an industry scenario and aims to provide educational information on a technical subject. Presentations can range from fundamental to advanced courses on a specialized topic.

Emerson Products & Services: Emerson experts provide an in-depth technical overview of a product or service, highlight what challenges they addressed and describe what benefits can be realized from deploying the product or service. Presentations may include tips, tricks and examples of how a specific product and service can be further utilized to help Users gain more value from their company's investment.

Emerson Educational Services: Take your expertise to the next level with Emerson's complimentary training courses, designed to address the latest industry technologies and critical skill sets. As part of our conference program, we will offer multiple high-value courses, each valued between \$475 and \$1,000 if taken independently. These courses provide an excellent chance to earn Continuing Education Units (CEUs) or are eligible for submission towards Professional Development Hours (PDHs), boosting your credentials while enhancing your knowledge.

Personal & Career Development: Personal training and development sessions aimed to help users and their teams to be more effective in the workplace.

Technology Exhibits

The Technology Exhibits is rated the number one most popular experience at Emerson Exchange. Learn about the technology behind the products and services and have in-depth discussions with the technology experts.

Brands like DeltaV, Rosemount, Micro Motion and Fisher, plus strategic third-party partners will make up a comprehensive collection of the latest and greatest automation technology solutions—a highly interactive engagement all within one location.

Social Events

Emerson Exchange offers more than just learning opportunities—it's a chance to connect and collaborate with peers throughout the week.

On Tuesday evening, join peers and friends for a carefully curated social event designed to foster relationships and exchange industry insights.

Start Wednesday morning with energizing wellness sessions. Additional details are available in the myExchange scheduler.

Conclude your experience on Thursday evening with a special closing event, celebrating achievements, engaging in meaningful conversations, and building lasting partnerships while enjoying a memorable atmosphere and culinary delights.
